# Hike Mt. Monadnock

**Venturing toward a positive impact with Northeast Mountaineering one step at a time.**

JAFFERY, NEW HAMPSHIRE: A reasonable, scenic 2 hour drive from Boston brings you to Mount Monadnock. At an elevation of 3,165 feet it is one of the outstanding peaks of the northeast. It is an isolated mountain which offers far reaching views from the Boston skyline to Mt. Greylock, MA up the Green Mountains as far as Mount Killington, VT and as far as Mount Washington, NH 105 air miles away. Monadnock was bared by fires over 200 years ago. The upper 300 to 400 feet of the mountain is exposed bare rock with 5 spruce covered ridges that emanate outward from the mountain with open crags and exposed ledges offering many scenic and spectacular views. # Golf Tournament

## **Chiseled from granite the course at The Shattuck speaks volumes about our Veterans.**

Carved from the granite foothills of Mt. Monadnock, The Shattuck is one of the most visually stunning golf courses you'll ever play. Course architect Brian Silva calls The Shattuck Club, "The Most Spectacular Setting I've ever come across." (New England Golf Magazine)

This is a course that lives in harmony with its surroundings, spanning acres of natural wetlands that serve not only as hazards to the golfer, but home to a wide variety of wildlife including mink, fox, deer, moose, beaver, otter and the great blue heron. The golf holes themselves stand in striking contrast to the woods and wetlands, with lush bent grass on every tee, fairway and green.

Aidclimb Golf Tournament will be played at par 72. Men will play the white tees with a yardage of 5,454. Women, children and seniors will play the yellow tees with a yardage of 4,385. It is a four-person, scramble format tournament.

# HONOR

## PROJECT

### **Engaging students to support our wounded veterans.**

In history class we learn about conflict; starting with the American Revolution to the World Wars through today's global issues with terrorism. We discuss the causes in great detail but often fail to address the effects. There are hundreds of thousands of American soldiers who have died or are wounded in the name of service. Their dedication to freedom is unparalleled. But, the wounds of war are real and expensive. Our soldiers experience physical and mental ramifications for putting their bodies and lives on the line to protect the American liberties that we enjoy daily. It is time to step up, welcome home our wounded veterans, and honor their sacrifices. This is the Honor Role Project.

#### **FINDING DIRECTION IN A TIME OF DISCOVERY**

##### **High school is a time of self-discovery and exploration.**

Beyond curriculum we learn much about ourselves, others, the world and more in the four precious years of high school. We explore. We try new things. We make mistakes. We learn. The Honor Role Project is an opportunity for teenagers to make a positive contribution to the lives of our wounded veterans. It is also an opportunity to learn about philanthropy, doing the right things for no other reason, to find confidence through success and to collaborate toward a common goal. We provide the structure, the students craft the process.

The mission is to hike Mount Washington in the White Mountains of New Hampshire with the guides at Northeast Mountaineering [[nemguides.com](http://nemguides.com)]. Beforehand, students solicit support through active fundraising efforts.

In many ways, this is a legacy project. As one class graduates the next builds off the momentum. One small step today leads to an unbelievable journey unfolding.

#### **VETERAN SCHOOL VISIT | \$300**

**Sponsor a Veteran to visit a local school for 2 hours.**
